

# PROTECTIVE VISOR 1

Reusable visor, article number ART11534

Manufactured in over 200,000 copies and used by both regions, municipalities and private traders to prevent the spread of Covid-19.

## Good fit

Simple and stepless adjustment with Velcro allows the scope to be adjusted exactly to the user's wishes and needs.

## Comfortable to wear

The soft foam against the forehead and the flexible Velcro strap against the head means that the visor can be worn for long work sessions without the risk of chafing or skin irritation.

## Scratch free

Comes with double protective film to prevent scratches during transport and storage.

## Combine with other protection

Can be combined with both mouth guards and glasses.

## Fog free

The visor is fog free during normal use.

## Covers the entire face

Covers the entire field of view. The visor is cut to facilitate rotation of the face without the visor touching the upper body.

## Stable

The visor has a thickness of 0.5 mm, which guarantees a stable and safe product.

## High quality

Highest optical class (one) for guaranteed good transparency.

## Long service life

Withstands repeated disinfections and daily use for several weeks.

# PROTECTIVE VISOR 1

## Area of use

Full-coverage visor for protection against drip infection. Intended for multiple use. With soft foam against the forehead and stepless adjustment of circumference with Velcro. CE marked and approved for multiple use.

”The Velcro strap gives you a good, durable and comfortable fit. The visor is also easy to take on and off because you do not have to adjust the circumference after each use.”

Ida Törnqvist  
Licensed nurse, Västmanlands Hospital Västerås

”Feels stable and solid compared to other visors we have tried.”

Marina Forssell  
Assistant nurse, Nordlunds retirement home in Köping

”Comfortable with good sharpness in the visor, easy to put on and take off, good quality that lives up to the requirements”

Kenneth Gonzalez  
assistant physician, Health center of Kungsör
